Marden Sofa Set - All-weather Rattan Product Information

Please read through these instructions and ensure they are kept for future reference.

No assembly is required, the cushion topped ottoman can be added to one side of the sofa to form an extended chaise longue.

This design is made from 5mm rounded weatherproof PE rattan (a polyethylene based rattan). It is extremely hardwearing and durable, making it a very practical weatherproof material for outdoor garden products. It has a slight 'hairy' quality which renders it more natural in appearance.

The woven seating is UV proof and will not fade in the sun or be damaged by rain. It is woven over a rust proof aluminium frame which is both light and strong and comes with distinctive aluminium feet as a smart design detail.

We recommend storing all PE rattan furniture away from the English elements over the Winter months to help prolong the life of these products. Simply give them a wipe down or gentle hose clean at the start of the Summer.

The cushion fabric is showerproof, but they should not be left outdoors for prolonged periods. We recommend sponge cleaning any marks that appear on the fabric. The covers are removable. Handwash only in cool water.
