Chilson Hallway Bench - Cement Fibre Product Information

Please read through these instructions and ensure they are kept for future reference.

Includes 1 x pot of wax. We recommend applying the wax to the bench top twice yearly. For daily care, wipe with a soft dry cloth and avoid the use of harsh cleaners and abrasives.

The bench top is made from a cement fibre material. The surface is hardwearing but should not be dropped or man-handled otherwise it may scratch or chip.

Maximum recommended weight limit 160kgs.
