## RAW Scaffold Shelf with Brackets - Wood Product Information

---

Please read through this information and ensure it is kept for future reference.

Please fix these shelf brackets into solid masonry walls only using the fixings provided.

Once the shelf bracket is in place, secure the bracket to the underside of the wooden shelf.

There is a maximum recommended weight limit of 5kgs.

We've partnered with a local company Raw Workshop from Oxford who help create employment, training and support to people who face disadvantages and barriers to work. The company provide high quality wooden products from furniture to home accessories and in the process help change lives.
